

FOR IMMEDIATE RELEASE

The Shops at Buttonwood Park Breaks Ground For New commercial Centre

Grand Cayman – April 4, 2025 – Pratt & Co. Capital (Cayman) Ltd. announced this week that Copperbelt, its developer for the 34,000 square foot retail and office project, has begun construction. This comes on the heels of the centre having reached over 50% in pre-sales.

Buttonwood Park is a 22-acre development on the Linford Pierson Hwy., and is home to Island Primary and soon to open CF High School. Island Primary offers classes from Reception through Year 6 with a strong British curriculum, customised for students to learn, grow, and excel. The school opened in the Fall of 2023 and has the capacity for up to 350 students. Rooted in Cayman, Island Primary nurtures a strong sense of community and embraces the island setting. The school is sustainably designed and nature learning is core to its' programme. A new high school, the CF School, is under construction in Buttonwood Park and is slated to open in September 2025. The two schools combined are expected to provide educational programs for up to 600 kids.

Pratt & Co, the owner of The Shops was founded in 1990, serving the southeastern United States residential and commercial real estate markets. In 2019 the firm decided to look outside the United States for investment and development opportunities. Having previous experience in the Cayman Islands seemed to be a natural starting point for the firm.
